I have been one of your clients since 1999, and I feel that I can easily state some of the highlights which have come to my attention:

The remoteness of our respective location has not hidden the fact that you always Displayed a complete sense of fairness and honesty.

Three years ago, without prompting, you were able to point out to me, over the telephone, the fact that I had changed my original motor car during the twelve months for which you were preparing my accounts, which I confirmed and provided you with the necessary documentation - this transaction alone had the effect of reducing my tax liability for that year - how prophetic that was!

From time to time, you have been able to quite legitimately reclaimed tax for me.

You consistently display a complete understanding of my business as a self-employed Locum Pharmacist.

Although I am often late in sending you my accounting records, you always complete them and submit my returns to HMRC within time limits.

Clarity of fees - you agree your fees in advance with me, which I find reasonable in all respects.

I would have no hesitation in recommending you to any ambitious business owner needing your services.
